

This Dog has Hemophilia and Needs Blood Products

He's one of many that you can help ... !!

Fluffy has *severe* hemophilia. He requires regular transfusions of blood products. **Fluffy** is one of many dogs that have benefited from the generous donations of volunteer companion animals through **Sun States: Blood Banks for Animals** blood donor program. We're helping **Fluffy** and many other sick or injured animals in need of life-saving transfusions.

PLEASE REGISTER YOUR COMPANION ANIMAL

as a volunteer blood donor if your dog meets the following criteria:

- ✓ **Must be at least 1 year of age (veterinarian approval required if over 8 years)**
- ✓ **Must be in good health, good temperament, and good with veterinarians**
- ✓ **Must be 50 pounds or more (or 35 pounds for our Half-Pints program)**
- ✓ **Must have current vaccinations**
- ✓ **Must not have any communicable blood-borne diseases**

In return, your dog will receive a **FREE** health assessment, blood typing, comprehensive blood screen (approximately \$300.00 in blood tests at **NO CHARGE** to you) and a blood donor ID tag. We are a **501(c)(3)** non-profit organization serving our community; financial contributions are tax-exempt and greatly appreciated.

Please contact us for more information.
